

Sprint 1 Plan

Crossover, Team: Crossover, Completion date 1/27/16, Revision 1, Revision date: 1/18/16

Goals: To lay a ground foundation for a website, browser extension, and mobile app to share my tabs between multiple devices.

Task:

User Story 1: As a user I'd like a chrome extension that can save tabs for me so that I can open them up on other or same device- (Story Point: 13)

- Create Chrome extension that displays active tab urls: 3 Hours
- Connect extension to website database to store tab urls: 1 Hour
- Add buttons to display user tabs: 1 Hour

User Story 2: As a user I'd like a mobile app that can save tabs for me so that I can open them up on other or same device- (Story Point: 13)

- Refresher/learn Android dev: 6 Hours
- Generate layouts (Login, Main, Settings, and Fragment layouts): 4 Hours
- Link with database: 2 Hours
- Debug/Finalize: 3 Hours

User Story 3: As a user, I'd like to save urls manually in the website so i can open them up on other or same device.-(Story Point: 5)

- Add input fields for new tabs: 1 Hour
- Create express route for new tabs: 1 Hour
- Link client side js with server: 1 Hour

User Story 4: As a user, I'd like to be able to select which tabs I want to save in the extension.-(Story Point: 8)

- Allow extension access to save open session tab urls: 2 Hours
- Add input fields to allow user to input urls: 1 Hour

User Story 5: As a user, I'd like a portal/dashboard to manage my tabs from multiple device.-(Story Point: 13)

- Design + add user login/register page and dashboard to express views: 2 Hours
- Add user registration/login express routes: 2 Hours
- Link client side js with server: 1 Hour

User Story 6: As a user, I'd like to have the tabs in sorted in order they first were. (By Default)-(Story Point: 5)

- Add array index tracking to 'tabs' and 'tab:tabGroup' get express routes: 4 Hours

User Story 7: As a user, I'd like to be able to have tabs in custom groups. (e.g. Work, Home, School, etc)-(Story Point: 2)

- Create Dynamic sidebar: 3 Hours
- Separate header and sidebar from content. Make "Includes": 1 Hour
- Add tabs to custom groups, input into group field: 3 Hours
- Add groups to database, delete groups from database: 3 Hours

Initial Task Assignment:

Plug-In Team (Christopher Peck & Justin Unverricht):

Christopher Peck: User Story 1: Create Chrome extension that displays active tab urls

Justin Unverricht: User Story 1: Create Chrome extension that displays active tab urls

Website Team (Timothy Ma & Kevin Harmon):

Timothy Ma: User Story 7: Separate header and sidebar from content. Make "Includes"

Kevin Harmon: User Story 5: Design + add user login/register page and dashboard to express views

Mobile Team (Nelson Ramirez & Jeff Guo):

Nelson Ramirez: User Story 2: Refresher/learn Android dev

Jeff Guo: User Story 2: Refresher/learn Android dev

Team Roles:

Christopher Peck: Product Developer

Timothy Ma: Scrum Master

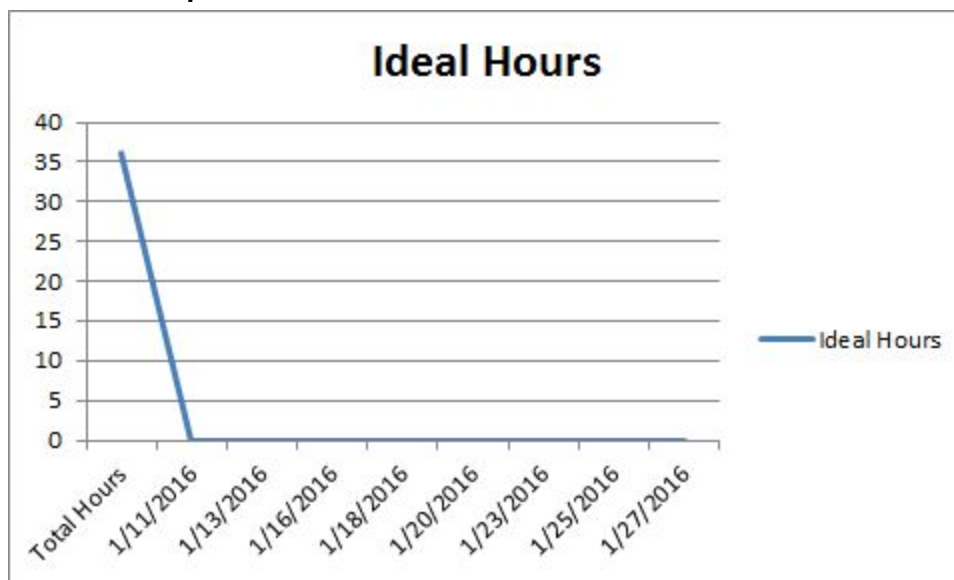

Kevin Harmon: Designer

Justin Unverricht: Designer

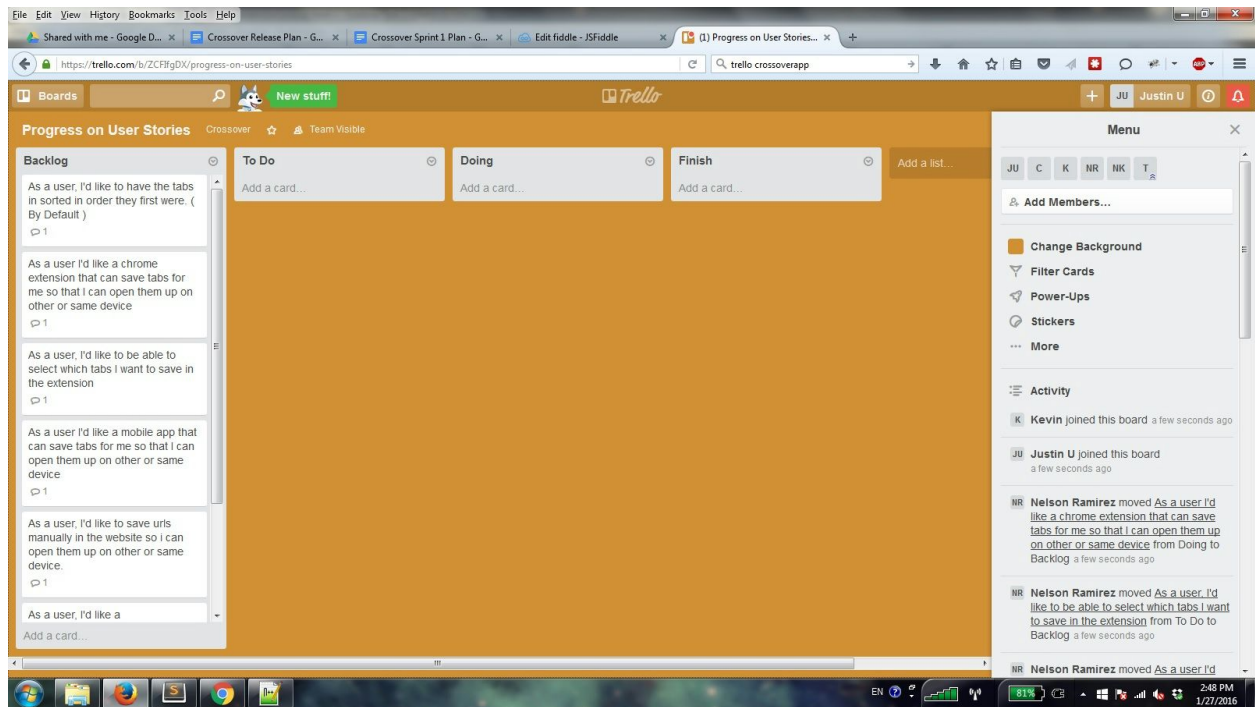

Nelson Ramirez: Designer

Jeff Guo: Designer

Initial Burn Up Chart:

Initial Scrum Board:

Scrum Times:

Monday 2-3pm: TA will show up at this scrum Meeting

Wednesday 2-3pm

Saturday 8-9pm
