Sprint 3 Plan

Crossover, Team: Crossover, Completion date 3/4/16, Revision 1, Revision date: 2/17/16

Goals:

>To finish up basic functionality
>
>To make a consistent look across all platforms

Task:

User Story 4: As a user, I'd like to be able to select which tabs I want to save in the extension.
(Story Point: 8)

- Display all open tabs via chrome api (1 hour)
- Give some way to let user select which tabs to pick (3 hours)
- save and update website database (1 hour)

User Story 8: As a user I'd like to edit and manage my tabs for a specific group on the website.
(Story Point: 8)

- Delete specific tabs: 8 Hours
- Move tabs around in desired order: 10 Hours

User Story 14: As a user, I'd like to be able to create and edit my custom groups in the extension.
(Story Point: 13)

- Allow user to create groups (1 hour)
- Allow user to delete tabs from groups and update (6 hours)
- Allow user to add a tab to a new group from the extension (3 hours)

User Story 15: As a user, I'd like to have a beautiful website so my eyes don't bleed.
(Story Point: 13)

- Align checkboxes: 1 hour
- Header for movement buttons: 1 hour

User Story 16: As a user, I'd like to be able to manage my tabs and group on android.
(Story Point: 13)

- Delete specific tabs: 8 hours
- Edit specific tab names: 4 hours

- Delete specific tab groups: 8 hours
- Edit specific tab group names: 4 hours
- Move Tabs in different order: 8 hours
- Move Tab Groups in different order: 8 hours

User Story 18: As a user, I'd like to be able to share my tabs (Email) on the website. (Story Point: 5)

- Create new sidebar field: 2 hours
- Create landing page for sharing: 5 hours
- Function(s) to share tabs: 5 hours

User Story 30: As a user, I'd like to be able to manage my tabs and group on extension (Story Points 13)

- Make tab group lists sortable and shareable(6 hours)
- Create buttons that allow tabs to move up and down in the groups(3 hours)
- save updated order and push it to the database: 1 hour

User Story 26: As a user, I'd like to have an overview page on the website, so that I know how to use crossover (Story Points: 3)

- Create clear how to use instructions for Website, Extension and Android App. (Will require input from all groups) (4 hours)

User Story 27: As a user, i'd like an account page on the website, so that I can change my password and other things. (Story Points: 8)

- Account page design (3 hours)
- Update email function (3 hours)
- Change password function (3 hours)

User Story 28:As a user, I'd like to delete tab groups on the website, so that I can remove unnecessary tab groups (Story Points: 5)

- Add delete button to Tab Group page/sidebar (2 hours)
- Add express route to Parse server for '/deleteTabGroup' (1 hour)

User Story 29: As a user, I'd like to have a beautiful extension so my eyes don't bleed. (Story Points: 5)

- update extension to match design of website (3 hours)
- create new buttons and layouts for each view (3 hours)
- create new favicon (1 hour)

User Story 32: As a user, I'd like to have a beautiful android app so my eyes don't bleed.

(Story Points: 13)
- Navigation Drawer Layout outline: 8 hours
- ListUrl Fragment outline: 4 hours
- Navigation Drawer header: 8 hours
- Actionbar: 2 hours

Initial Task Assignment:

Plug-In Team (Christopher Peck & Justin Unverricht):

Christopher Peck- As a user, I'd like to be able to select which tabs I want to save in the extension.

    Display all open tabs via chrome api
